5 5 rules for getting paid work

1. **Join 2–3 platforms.** Work comes in waves, so more pools means less waiting.
2. **Apply for roles in your own field**, not just general ones. That's where the pay is.
3. **Prepare for the AI interview.** See the free **AI Interview Cheat Sheet**.
4. **Keep records for tax.** You're a contractor, so declare your earnings (UK: Self Assessment over the £1,000 trading allowance).
5. **Never pay to apply.** Real platforms are free. Anyone asking for money is a scammer.
